

Hospital Inventories Specialists is a national inventory service company providing completely itemized inventories for all hospital departments. Our experienced auditors accurately count medical/surgical supplies, pharmaceuticals, major movable equipment and surgical instruments. HISI is a cost effective alternative to using hospital staff.

Services/Features

HISI clients receive the following benefits:

- Quality service guaranteed with 27 years of experience in healthcare inventories
- Service any or all departments: Pharmacy, Surgery, Clinical Labs, General Stores, Central Supply, Cardiac Cath Lab, Radiology, Emergency Room, Dietary, Engineering, Surgery Center, Physician Clinics, Assets and more.
- Various Inventory Methods: PDT, Bar Code, Telxon, Audio Record, Count Sheets
- Clients may choose from a wide variety of reports (over thirty) including Narcotic Class and Therapeutic Classification for pharmacy projects
- Inventory data can be provided electronically
- HISI can populate the inventory report with your internal data (MMIS#)
- Minimal disruption to daily business activities
- Eliminate excessive overtime payroll
- HISI will pull expired product found during the course of counts
- Accuracy is enhanced
- HISI will utilize your acquisition prices to value your inventory
- Auditors are professionally attired, full-time employees
